- Hunter is a good TA, he is very available and happy to answer any questions.
- Hunter provided us with a lot of practice exercises during discussion which helped me understand the concepts more and improve my skills.
- Hunter was great the first few weeks that I went. I just found that the class didn't really need as much time as my other ones so I stopped going, which I feel a little bad for, but it's in Dodd hall which is a pain in the to go to.
- Hunter was super organized, clear, and deeply cared about teaching students! I always felt comfortable asking questions and speaking up in section. Overall, Hunter is a great TA!
- I feel like the discussions really helped to expand on concepts from lecture, and I think this is in large part because of Hunter. Not only did he make for an effective lecturer, but I think he was also an interesting lecturer which helped to stay engaged during discussion.
- I felt the TA did an excellent job teaching his discussion, sometime I felt I learned more in the discussion compared to the lecture. Moreover, I was thankful the TA was patient with the students that he was teaching.
- I think he did a good job breaking down class content. He also gave extra problems to practice which was super helpful.
- My TA was great! He put in so much effort to create effective discussion sections and answered all of

the questions in detail and with kindness and patience. Truly a talented teacher and a person who really cares to put in effort to help students learn. I felt very supported throughout this class as a result of him. It was clear he prepared for the discussion sections and tried to make them effective and enjoyable.

- My TA was very helpful when it came to increasing my understanding of course content. He provided very useful practice problems and whenever he walked through the material, it was always very concise and clear, and I always left discussion with a more enhanced understanding of the concepts. He was also very kind and made asking questions a much less daunting process. Overall, I really appreciated the opportunity to learn from him this quarter.
- Really helpful if you have any questions and was very thorough during discussion sections to go over materials.
- The TA was always available and very helpful for the contents of the course.
- good TA bad course
