Comments
Hunter was a fantastic TA. I literally have no notes. He was a good teacher, kept the lectures interesting, and had frequent student participation.
Always helpful and always were there to help with analogy and help us understood better
Hunter was an amazing teacher and was able to take some difficult topics and make them really easy to understand. He was a great help in my success in this course.
Both the TA and Prof are really great at teaching
Hunter was a great TA I felt like I learned just as much in discussion as I did in lecture, if not more.
Hunter was a great TA, he fostered a collaborative environment in the classroom and always took the time to answer questions. The examples, such as building our own wordle game, were interesting and complex examples of class content, I enjoyed these discussions the most. Hunter has a unique sense of humor and makes coding almost seem like a video game, which is fun!
Hunter is one of my favorite TAs I have had. He is very kind about confusion on difficult topics and provides many easy-to-understand examples.
The discussion definitely related to the class very well, and our TA was very good about providing us help when needed.
